General Studies- IV: Ethics, Integrity, and Aptitude

This paper will include questions to test the candidates' attitude and approach to issues relating to integrity, probity in public life and his problem solving approach to various issues and conflicts faced by him in dealing with society. Questions may utilise the case study approach to determine these aspects. The following broad areas will be covered.

TOPIC	EXPECTATION OF UPSC	HOW TO PREPARE/TRAINING REQUIRED
1. Ethics and Human Interface: Essence, determinants and consequences of Ethics in human actions; dimensions of ethics; ethics in private and public relationships. Human Values – lessons from the lives and teachings of great leaders, reformers and administrators; role of family , society and educational institutions in inculcating values.	<p>BE A Civilized human beings, believing in value loaded solutions to administrative problems.</p> <p>Through this paper Ethics, Integrity and Aptitude UPSC is testing the aspirants about the ethics and other dimensions of ethics. An administrator's professional conduct must conform to an ethical code of behavior, and the code must set high standards for all administrators. They provide professional leadership in every field of their career. This responsibility requires the leader to maintain standards of exemplary professional conduct while recognizing that his or her actions will be viewed and appraised by the society, professional associates and various government bodies. They commit to serving others above self. Accepts responsibility and accountability for one's own actions and behaviours. Fulfils all professional duties with honesty and integrity and always acts in a trustworthy and responsible manner.</p> <p>The students are required to understand the basic concept of ethics, emotional intelligence, probity etc and also be able to apply them at the work place. The rules of work is changing. We are being judged by not just how smart we are but also how well we handle each other and ourselves. Emotional Intelligence Quotient (EQ) is increasingly relevant to organizational development and developing people, because EQ principles provide a new way to understand and assess people's behaviours, management styles, attitudes, interpersonal skills, and potential.</p> <p>The future administrator must have the ability to resolve conflict through management, negotiation, Compromise, bargaining, competition, threat?</p>	<p>Understanding the theoretical concept of ethics, integrity, attitude, probity, emotional intelligence etc and the application of the concept. The students will be taught the theoretical concepts by lectures, PPTs, case studies, group discussion, debates and role plays etc.</p> <p>The topics will be more related to the realisation in the candidates rather than a theoretical training.</p>
2. Attitude: content, structure, function; its influence and relation with thought and behaviour; moral and political attitudes; social influence and persuasion.	<p>Same as above along with development of Balance of perception, Response to a problem. Understand Accountability, and prejudice management</p>	<p>Same as above. Additionally Response perfection, Seeing what is there rather than what they want to see.</p>
3. Aptitude and foundational values for Civil Service, integrity, impartiality and non-partisanship, objectivity, dedication to public service, empathy, tolerance and compassion towards the weakersections.	<p>Same as above along with development of Balance of perception, Response to a problem. Understand Accountability, and prejudice management</p>	<p>Same as above. Additionally Response perfection, Seeing what is there rather than what they want to see.</p>

4. Emotional intelligence-concepts, and their utilities and application in administration and governance.	Same as above along with development of Balance of perception, Response to a problem. Understand Accountability, and prejudice management	Same as above. Additionally Response perfection, Seeing what is there rather than what they want to see.
5. Contributions of moral thinkers and philosophers from India and world.	Varied personalities and their influence, particularly those who are associated with some problem solving, who have been leaders who have shaped the outcome of real world. This will include Gandhi, Martin Luther King, Mao Tse Tung etc.	Same as above. Additionally the candidates will be required to understand Response perfection, Seeing what is there rather than what they want to see. Plus the student will be required to do a lot of Contemplation.
6. Public/Civil service values and Ethics in Public administration: Status and problems; ethical concerns and dilemmas in government and private institutions; laws, rules, regulations and conscience as sources of ethical guidance; accountability and ethical governance; strengthening of ethical and moral values in governance; ethical issues in international relations and funding; corporate governance.	Same as above. Additionally, the candidate must have information about government policies some laws, and some protocols, which are required for governance.	Training form assuming that the candidates have already qualified for the examination.
7. Probity in Governance: Concept of public service; Philosophical basis of governance and probity;	Same as above. Additionally, the candidate must have information about government policies some laws, and some protocols, which are required for governance.	Training form assuming that the candidates have already qualified for the examination
8. Information sharing and transparency in government, Right to Information, Codes of Ethics, Codes of Conduct, Citizen's Charters, Work culture, Quality of service delivery, Utilization of public funds, challenges of corruption.	Same as above. Additionally, the candidate must have information about government policies some laws, and some protocols, which are required for governance.	Training form assuming that the candidates have already qualified for the examination
9. Case Studies on above issues.	Understanding a variety of situations under which administrative decisions are taken. Different case studies	Subjecting the students to a variety of situations and possibilities where the student can think of finding a solution.
